MOVE WISELY

Moovex saves you time, money and frustration by economizing your organization's transportation logistics.

Moovex is an End to End, web based transportation management system. It enables planning and monitoring of all the organization's transportation aspects thru a web interface and a mobile application.

By using Moovex, the organization can achieve a dramatic reduction of up to 30% of transportation costs, additionally to a massive reduction in carbon footprint, traffic congestion, gasoline use, free parking spaces and time.

Moovex uses a unique algorithm that enables dynamic and optimized planning of the organization's needs.

Moovex creates optimal routes on a live map and locate stations on demand to build the perfect routes for the passengers and for the drivers.

Optimization Algorithm

- Optimize best routes
- Optimize best vehical sizes
- Generate optimal pricing

Management

- Mobile App
- Dashboard
- Efficiency Reports
- Special Alerts & Notifications
